

SYLVANIA

GOODBYE
HALOGEN
**HELLO
LEDs**

End of an Era: The phase-out of inefficient Halogen retrofit lamps

Halogen Phase-Out 1 September 2018

Light your world

The time is now

Goodbye inefficient and expensive to run lamps! As of 1 September 2018 the second phase of the Halogen phase-out is due to commence. Any Halogen non-directional lamps which do not comply to the new Eco-design requirements cannot be placed on the market.

Fear not... Sylvania has a complete range of LED decorative lamps to replace their Halogen counterparts that are due to be phased out in September.

LEDs are better for the environment; they reduce CO₂ emission and are cost effective. For example, one Sylvania LED lamp could last up to 15 times longer than your existing Halogen version.

LED lamps are easy to install into existing sockets and you can begin to enjoy significant savings immediately.

From 1 September 2018, lamps within the following categories which do not meet specific technical parameters will be phased out according to the EU Eco-design legislation*:

Mains Voltage Halogen

GLS, Candle (standard, twisted, bent-tip), Ball, Globe, Tubular, Striplight (S19)

Low Voltage Halogen

GY6.35 capsule, G4 capsule

*Commission Regulation (EU) 2015/1428 of 25 August 2015 amending Commission Regulation (EC) No 244/2009

When

From 1 September 2018

What

Halogen Mains and Low Voltage Non-directional Lamps (excluding R7s & G9 capsules)

Why

Mains voltage (230-240V)

Lifetime <2,000h

Energy Rating < **Class B**

Low Voltage (12V)

Lifetime <4,000h

Energy Rating < **Class B**

Mains voltage AC 220-240V

Why choose Sylvania LED lamps?

The high level of technology in our lamps means that you can confidently replace old technology with the latest LED retrofit lamps for general lighting purposes. Sylvania thrives to satisfy customers by replacing halogen lamps with LED, maintaining the light level and comfort they are used to, and achieving huge energy savings.

Our performance is best in class, making it easier for customers to make the best choice in the market and take no risks on safety or quality.

Switching to LED lamps offers many advantages:

- They match the shape and size of a halogen lamp, ensuring they can retrofit all luminaires
- Available in clear and frosted finish
- The RefLED Retro range also replicates the classic look of halogen lamps with their glass construction
- Last up to 15 times longer than halogen lamps
- Most ranges offer dimmable models*
- High luminous efficacy
- Omni-directional light distribution
- Available in a wide range of colour temperatures
- A+ to A++ energy class, offering up to 90% energy savings
- Comes with 3 years standard warranty, for complete peace of mind
- They are ideal for domestic, hospitality, leisure and retail lighting

*For a list of approved dimmers, please refer to our dimmer compatibility list available at www.sylvania-lighting.com

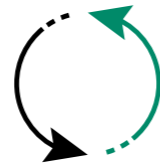

Quick payback period

Halogen Classic Eco ToLEDo™ Retro

Example Halogen Classic Eco vs ToLEDo™ Retro

Electricity consumption	Average life	Pay-back period	Saving	Energy rating
Reduces by up to 90%	7.5X longer	Less than 7 months	> 100€ over life time	A++

Direct replacement

Last up to 15 x longer than halogen

3 Year Warranty

Dimmable versions available*

Omnidirectional light distribution

A++ energy Class

No rewiring of luminaires

Low voltage

It's easy to switch: Low voltage LED alternatives

The legislation also covers low voltage Halogen Capsules and will be phased-out along with the mains voltage Halogen lamps. Please see Sylvania's alternatives below. It's easy to make the swap to LED!

Mains voltage

The high performance requirements set in the legislation means that, as of 1 September 2018, most mains voltage non-directional lamps will no longer comply. These non-compliant lamps can no longer be produced or imported for resale into the EU. But don't worry, Sylvania has an extensive range of LED alternatives to meet your lighting needs.

Don't forget

Sylvania's Double-ended Halogen (R7s) and G9 lamps meet the legislation requirements and therefore they can be continued to be purchased after September 2018.
